Publication of the encyclopedia's volumes was the sole business conducted by the company during the project's lifetime.[5] Purpose The encyclopedia was designed to serve the Catholic Church, concentrating on information related to the Church and explaining matters from the Catholic point of view. In 1912, a special completely illustrated, commemorative volume was awarded to those patrons who contributed to the start of the enterprise by buying multiple encyclopedia sets early on.[7] There was controversy over the presence of the Catholic Encyclopedia in public libraries in the United States with nativist protests that this violated the separation of church and state, including a successful protest in Belleville, New Jersey.[8] The encyclopedia was later updated under the auspices of The Catholic University of America and the New Catholic Encyclopedia was first published in 1967, and then in 2002.
